

I Am Loved

By Daryn B., age 9, Utah, USA

I have medical problems that have been really hard. I was born differently, without any way to use the bathroom. I have had three major surgeries and a few small ones.

Sometimes I wonder why I am like this. But thinking about God and His plan of salvation helps me remember that I am just as loved as everyone else. Having a testimony of the gospel is amazing, and I know I can depend on the Lord.

I love my body very much. I know I am truly a gift of light (which is what my name means). Even though I struggle, I know I can always ask God for help. ●
