# Understanding the Beatitudes

Carefully read the beatitude you chose, and ponder or highlight key words or phrases you find. Then take some time to deepen your understanding of those words and phrases by doing one or more of the following:
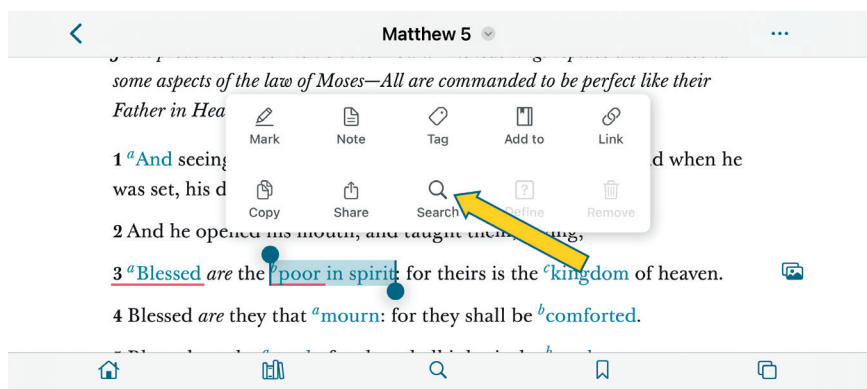

- Use the footnotes, a dictionary, or the Define tool in Gospel Library to better understand key words.

- In Gospel Library, go to the General Conference collection and use the Topics search tool to learn what Church leaders have said about the truth or truths taught in the beatitude you selected.

- In your digital scriptures, highlight the phrase that best captures your beatitude (such as "poor in spirit"), select the **Search** feature, and then study one or more of the resources that appear.

Based on what you learned, be prepared to share how **applying the truths taught in the Beatitudes can help us come unto Christ and obtain greater happiness**.
