

PPE Hazard Assessment

Purpose: Use this form to survey each facility or physical location for hazards and to determine required personal protective equipment (PPE). Use the guidelines under “Personal Protective Equipment” in the “Safety Guidelines” chapter of the *Safety, Health, and Environmental Manual*. A current copy of this form should be reviewed regularly to ensure processes are followed. If more space is needed, use the other side of this page

Facility Information

Facility name or location

Facility Assessment			
Work Area	Task	PPE Required	Comments
<i>Example: Maintenance Shop</i>	<i>Welding</i>	<i>Welding mask or goggles, heat-resistant jacket, heat-resistant gloves</i>	<i>Steel-toed shoes required with plasma cutter</i>

Signatures

As the PPE evaluator I certify that this hazard assessment has been performed and is complete.
